SOCIAL SECURITY MUST HAVE REPORTS MADE
"Mr. R. C. Gehrkens, Jr., manager of the West Palm Beach office of the Social Security Administration, announced today that most self-employed persons under 75 who received social security payments during 1952 must file a report with the Social Security Administration by March 15, showing their net earnings during 1952, if their earnings were more than \$500.00 during the year from a trade or business that is covered by the Social Security Act."

"Another group required to file this report are those who had their checks stopped during 1952 because they were self-employed," Mr. Gehrkens said. "If the self-employed person received social security payments during 1952, a representative of the family, a representative of the estate, or other in the interest of the individual should file this report," Mr. Gehrkens explained.

He added, "This report is different from the one that is filed with the Director of Internal Revenue. If you notified the Social Security Administration during the year that you were navigation facilities. The Resi-

Here is Chrysler Quality at SURPRISINGLY LOW COST!

The word "sugar," found in all languages, originated from the ancient Indian language Sanskrit. Sugar was called "sarkara" which means pebbles or tiny stones.

"The only things getting longer about women's clothes are the shoulder straps." — John Juliano.

Continuing its "Get Out the Vote" effort, the Florida State Chamber of Commerce is working with other state organizations to get every citizen to the polls on election day.

On their return trip from visiting the Clewiston Sugar Mill, a group of about 80 children, of the 5th and 6th grades, together with their teachers and sponsors, from the Jupiter Elementary School, had a picnic lunch at the Belle Glade Municipal Park, on Wednesday.

JOHNNY THORNE IS HONORED AT PARTY

Mrs. Jack Thorne, entertained Saturday evening with a party, complimenting her son Johnny, on his fourteenth birthday, at the Belle Glade Municipal Park.

About 35 boys and girls, mostly class mates, enjoyed games and dancing, after which they were served cake and ice cream. Mrs. C. W. McDonald and Miss Kathleen Rogers assisted Mrs. Thorne in serving.

One papaya plant may produce as much as 200 pounds of orange-colored fruit that contains medicinal pepsin.

The hairy seagrape from South America is related to the wild seagrape found along Florida's beaches.

Cattle and hogs at the Glades State Prison Farm are used as a source of most of the meat for human and blackstrap for cattle and hogs are produced by the Prison Farm. At the right is a handful of Glades rough rice, a long-time crop of the Farm.

Several Glades Art students, received recognition at the presentation ceremonies of the Southern Florida scholastic arts awards in Burdine's auditorium, Saturday.

Gold keys emblematic of artistic achievement, were given 80 students of high and junior high schools in the South Florida area, with certificates of merit going to others.

Making the presentations were Joe Hall, associate superintendent of public instruction for the Dade School Board.

About 120 paintings judged best in their field will go to Pittsburgh, Pa., where they will compete against the best of school art work from all parts of the nation.

The national competition at the Carnegie Institute is sponsored by Scholastic Magazine. The South Florida regional competition is sponsored by Burdine's.

Belle Glades students receiving awards were Aline Hemphill, first place, poster making; Frances Layfield, third place, poster making; and Kay Rivers, third place, in cartooning.

Pahokee high school students were: David Cunningham, honorable mention, in cartooning, and Jimmy Schweppel, honorable mention in ink drawing. These students are art pupils of Mrs. Margaret Earwood.

A special drive has been begun by local Elks for a high percentage of participation in the Founders' Certificates available to each Elk as a contribution to an endowment fund for the Harry Anna Home. Harold Rubin, a member of the Board of the Home will deliver to the Board the increased list of local contributors at the annual meeting to be held within the month.

Mr. Kirchman announced that State President Victor O. Wehle will make official visits to this District at Ft. Myers on March 4th and in West Palm Beach on April 1st, and urged a large official attendance at these meetings.

The four initiates were J. F. Wooten, T. G. Foster, Roland Whitlock and Anston Codie. A barbecue with fresh roasting-eats was served following the meeting.

JUPITER CHILDREN HAVE PARK PICNIC

On their return trip from visiting the Clewiston Sugar Mill, a group of about 80 children, of the 5th and 6th grades, together with their teachers and sponsors, from the Jupiter Elementary School, had a picnic lunch at the Belle Glade Municipal Park, on Wednesday.

DISTRICT PRESIDENT INSTALLS OFFICERS

At the regular meeting of the Rebekah Lodge 21, at the Ben-evolent Hall, Tuesday night, the remaining officers who on action of illness could not be at previous meeting, were installed by Miss Frieda Stiff, District Deputy president, and her staff from Gardena Lodge, West Palm Beach and Golden Link Lodge, Lake Worth.

Miss Kathleen Rogers gave an interesting talk on "Like Work of Schuyler Colfax," he being an orator of Old Fellow.

Guests from Gardena Lodge Kerman, Mrs. Audrey Coro, meledis, Mrs. Ann Curtis, Mrs. Maude Biers, and Mrs. Lily Stiff. From Golden Link Lodge, Mr. and Mrs. Christopher Alsop.

During the business meeting,

plans were made to hold a rummage sale March 14.

Refreshments were served by Mrs. Lorraine McTaggart and Mrs. Jessie Leathers.

LUTHERAN MEN WARNED TO WATCH PANTS AND SHOES FOR FEW DAYS

The ladies of the Lutheran Church are bound to do something to bring in a little hard cash for their church activities, and the idea of a rummage sale was accepted. Naturally they want the public to be notified so that purchasers will be on hand.

I know of no better way to

help the Lutheran flock than to warn its male members about the clothes and shoes put away in the closet, for the ladies just must have that rummage sale and the distinction between use-ble clothes and rummage on such an occasion is not always too clearly defined.

So if the boys don't watch those clothes there's bound to be some real bargains at that rummage sale. It might even be wise to look around the sale early and try to retrieve the favorite tie, pair of shoes or extra coat for as little as possible. There's bound to be some bargains at this sale.

News Of Churches Of The Glades Area

KATHLEEN LIVINGSTON, Editor

The Struggle Of Christianity In English Church

"The Church in England" will be the topic Sunday night at 8 o'clock of the Belle Glade Episcopians at the home of E. D. Lively, 100 N. W. Ave. F. This is the third of Father Petrie's discussions of Highlights in Church History. It will tell of the origin of Christianity in England before the arrival of Augustine from Rome, of the subsequent acceptance of the Roman type of Catholicism, and of the struggle that went on for centuries between the English crown and the papacy.

Father Petrie is also preaching a series of sermons on "The Problem of Evil" on the Sunday mornings of Lent, in Pabokee at 9 and in Clewiston at 11. His topic next Sunday morning will be "The Fathers Have Eaten Sour Grapes" and will describe Ezekiel's rejection of the sour grapes of the prophet Jeremiah.

CIRCLES MEETINGS ARE HELD BY WSCS

WSCS Circles of the Community Methodist Church met on Wednesday afternoon. The last few chapters of the study book, "Towards Understanding the Bible," were discussed.

Mrs. Clara Gledhill is in charge of the program of the Mary-Martha Circle, at the home of Mrs. C. E. Maynard. Mrs. Ralph Freeman gave the devotional, and Mrs. D. C. DeFaveo presided over the business meeting. Others present were Mrs. Clarence Kidder, Mrs. Robert Allen, and Mrs. C. A. Bailey.

March 26 meeting will be held at the home of Mrs. Ralph Freeman.

The Ruth-Naomi Circle met at the home of J. I. Freedlund with Mrs. M. M. Sabiston giving the devotional, and Mrs. C. A. Thompson in charge of the business meeting.

It was announced that a disunion meeting will be held March 17, at the Wagg Memorial Church, West Palm Beach.

Others attending were: Mrs. J. A. Ball, Mrs. J. H. Bratley, Mrs. George Farnall, Mrs. W. H. Hooker, Mrs. C. J. Shuck, Mrs. N. T. Taylor, Mrs. H. V. Dras, Mrs. Frank Dooley, and Mrs. E. M. Van Landingham. Visitors were Mrs. Mabel Stollard and Mrs. E. L. Hollady.

REVIEWING OF BOOK AT CIRCLE MEETING

The Circles of the Everglades Presbyterian Church met Tuesday evening, reviewing of the Book of Colossians was given, and programs on the topic, "Our Christian Witness."

Circle 1, met at the home of Mrs. Harry Smith. Mrs. Helen Browning opened the meeting with an introductory prayer, the book review was given by Mrs. William Lautz. Mrs. E. L. Ruff was in charge of the program, the meeting ended with a prayer by Mrs. Lautz.

Other members attending were: Mrs. Carl Cone, Mrs. Robert Ford, Mrs. Clara Gledhill, Joan Muller, Mrs. John Randolph, and Mrs. David Motes. Guests were Mrs. Henry Collins, Mrs. Pete Scuran, and Mrs. William Lautz, of Miami.

Circle 2 met at the home of Mrs. William Elder, with Mrs. Richard Murray giving the devotional and prayer. Mrs. Robert Roadman gave the Bible study and Mrs. Tommy Parker was in charge of the program. The meeting closed with a circle of prayer.

Mrs. Mabel Stollard was

guest, other members attending were Mrs. Robert Lanier, Mrs. John Kenlaw, Mrs. Gene Beck, Mrs. Mildred Booth, Mrs. Sam Crisman, and Mrs. Robert Huebner.

OLD FASHIONED DOUBLE HEADER GOSPEL SING

Friday night, March 6 at 8 p.m. the walls of the new High School Gym will ring with musical numbers, piano solos, comedy singing and old fashioned quartette, gospel songs in a program sponsored by the Glades Singing Convention and featuring the Gospel Harmony Quartette from West Palm Beach.

This group is now on television out of Miami and is said to be one of the best in the South. The Uptegrove Quartette composed of Billy Mathis from Lake Harbor, Paul Brackin from Belle Glade, Bob Uptegrove from Pabokee and Osceola Uptegrove from Canal Point along with several musicians will put out the bill and promise plenty of good old fashioned music.

An admission charge of \$1.00 for adults and 50 cents for children will be made to cover the rental of the gym and other expenses of the groups. Any profit will go toward the promotion of singing groups in the Glades.

FATHER PETRIE TALKS ON JUVENILE DELINQUENCY

The Parent Teacher Association met at the school auditorium on Wednesday evening, March 4, with Father Petrie presiding.

The treasurer reported a balance of \$469.99.

The attendance prize for the month was awarded to the eighth grade home room taught by Principal Pellon Morris.

Mrs. Challan read a portion of the state president's letter urging the organizations to Character Building.

Mrs. The hospitality committee consisting of Mrs. Pellon Morris, Mrs. I. P. Roberts and Mrs. R. B. Woodham served home-made cake and coffee during the social hour which followed the program.

THURSDAY BIBLE STUDY HELD AT SMITH HOME

Dr. Albert Hughes, of Toronto, Canada, editor of the religious book, "The Challenger," and speaker at outstanding conferences, will lead the Bible study every Thursday night at 8 p.m., at the home of Mrs. Harry Smith, the public is invited to attend. Come and bring your Bibles.

The Golden Text is from Psalms (64:12): "Blessed are they that dwell in thy house: they will be still praising thee."

Passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "The Scriptures inform us that man is made in the image and likeness of God, Matter is not that likeness. The likeness of Spirit cannot be so unlike Spirit" (p. 475).

Churches of Christ, Scientist, that blessedness, freedom, and dominion constitute man's heritage is the keynote of service to be had in all churches of Christ, Scientist, next Sunday when "MAN" is the subject of the Lesson-Sermon.

The Golden Text is from Psalms (64:12): "Blessed are they that dwell in thy house: they will be still praising thee."

Others attending were: Mrs. Carl Cone, Mrs. Robert Ford, Mrs. Clara Gledhill, Joan Muller, Mrs. John Randolph, and Mrs. David Motes. Guests were Mrs. Henry Collins, Mrs. Pete Scuran, and Mrs. William Lautz, of Miami.

Circle 3 met at the home of Mrs. William Elder, with Mrs. Richard Murray giving the devotional and prayer. Mrs. Robert Roadman gave the Bible study and Mrs. Tommy Parker was in charge of the program. The meeting closed with a circle of prayer.

Mrs. Mabel Stollard was

World Day of Prayer observed by 5th grade pupils at elementary school, Feb. 20. Theme: "Children walk in paths of light." Rear standing: Linda Evans, Nell Kellough, Linda Rhymes, Jane Young, Donna Jean Holt, Martha Farmer, Hannah Powell, Edna Morgan, Eva Jo Bravado, Peggy Spell, Genie Boyd, Barbara McClure, Betty Sue Broome, Sandra Kay Motes, Beverly Kirkland. Center row: John Waters, Jimmy Dees, Kirk Manor, Bobby Mooney, Robert Gottsdank, Stewart Boots, Neil Hart, Carlos Sloan, Gary Frazier, Ronnie Thomas, Ronal Huddapeth, William Meloy, Clarence Throp, John David Chamblie. Front row standing: Brooks Whitlock, Norma Jean Rishley, Sidney Pierce, Karen Veder, Don Stevens, Phyllis Buss, David Chancy, Sydney Binkley. Front kneeling: Anchor Lee Cumption, Jr., and Douglas Sands.

acquaint their representatives in the state legislature with such legislation as they favored.

A nominating committee consisting of Mrs. I. P. Roberts, Mrs. Norman Dalrymple and Mrs. Edythe Eckman was appointed to present a slate of officers for consideration at the April session.

The suggested revision of the by-laws by the committee was adopted.

Announcement was made of the district session to be held in Fort Pierce on March 12 and of the next session of the Palm Beach County Council to be at Lake Harbor on March 17.

Mrs. Norman Dalrymple, program chairman, introduced the speaker of the evening, Father John Clarence Petrie, Episcopal cleric from Clewiston who presented a very interesting talk on Juvenile Delinquency and

FRED ROBBINS, Elder

INTERNATIONAL SUNDAY SCHOOL LESSON—March 8, 1953

"Jesus Urges Alertness" Matthew 25:1-13

INTRODUCTION:

This lesson follows last week's prediction of Jerusalem's Judgment (ch. 23:37-39).

AIM:

1. To discover the tragedy of unpreparedness.
2. To emphasize the necessity for being watchful.
3. To recognize the necessity for being aware of both good and evil situations and opportunities about them.

CONCLUSIONS:

1. Believers are to live in a constant state of preparedness for the return of our Lord.
2. There may seem to be some delay in the return of Christ.
3. If you are not ready at His return it will be too late to get ready.
4. Some who make a profession now will not be included.
5. No man knows the day or hour, so be ready; watch and pray!

THIS WEEK'S SERMONETTE

ELDER, FRED ROBBINS

First Baptist Church of Chosen

The Best News In The World
"How that Christ died for our sins according to the scriptures; and that He was buried, and that He arose the third day according to the scriptures" (1 Cor. 15: 3, 4).

The best news the world ever heard is not considered of great news value to most men, it is not about something that just happened yesterday. It is of supreme importance and should be an immediate concern to us, as if it had just been released in the latest news flash.

This "Good News" is the gospel of Christ. The word Gospel means good news and it's story is the best news anyone ever received. All the world, and that includes all of us, is "under sin" (Rom. 3:9), "guilty before God" (Rom. 3:19), "under the curse" (Gal. 3:10); and "without excuse" (Rom. 1:20). By nature we are "children of wrath" (Eph. 2:3), "without Christ, being

aliens from the common-wealth of Israel, and strangers to the covenants of promise, having no hope, and without God in this world" (Eph. 2:12). We are "dead in trespasses and sin" (Eph. 2:3) "and cannot please God" (Rom. 8:8).

The gospel of Christ declares unto us "How Christ died for our sins according to the scriptures." "He gave Himself for our sins that He might deliver us" (Gal. 1:4), and that He "might redeem us from all iniquity" (Titus 2:14). He took our place as a sin-offering that He might meet every requirement of God's law, and thus provide a just ground upon which God could be just, and the justifier of those who believe on Jesus. (Rom. 3:26) Because of our sins we are under the curse, and He took our place under the curse to redeem us from it (Gal. 3:13). This Good News becomes "the power of God unto salvation" (Rom. 1:16) but only to those "who believe."

GEMS OF THOUGHT

Glory

The glory of human life is in overcoming sickness, sin, and death. — Mary Baker Eddy.
Let him that glorifies glory in this, that he understandeth and knoweth me, that I am the Lord which exercise loving-kindness, judgment, and righteousness, in the earth; for in these things I delight, saith the Lord. — Jeremiah 9:24.

Real glory springs from the silent conquest of ourselves.

True glory consists in doing what deserves to be written; in doing what deserves to be

read; and in so living as to make the world happier and better for our living it. — Pliny.

By skillful conduct and artificial means a person may make a sort of name for himself; but if the inner jewel be wanting, all is vanity, and will not last. — Goethe.

Our greatest glory consists not in never failing, but in rising every time we fall. — Goldsmith.

The largest and most perfect grove of royal palm trees on this continent is found at McKee Jungle Gardens near Vero Beach.

THIS CHURCH PAGE MADE POSSIBLE BY THE FIRMS AND INDIVIDUALS LISTED ABOVE

SOUTH BAY BEAN CITY LAKE HARBOR

Dr. and Mrs. Roger Peetee of Bowling Green, Ohio were guests of their cousins, Mr. and Mrs. Lawrence J. Rogers on Tuesday.

Mrs. E. W. McLeod and children accompanied by Mrs. S. L. Eckman attended the Gladioli Show in Delray Beach on Wednesday.

Mrs. C. M. Larrick and Mrs. Lee Johnson of Lake Harbor attended the opera in Miami Monday evening.

Mrs. Alfred Vadaz, formerly of the office personnel at South Bay Growers, has recently taken a position in the office of the Pioneer Growers in Belle Glade.

Her mother, Mrs. B. M. Fender, operates the canteen at the Pioneer Growers.

Mr. and Mrs. Nathan Bolton have purchased the Lee Johnson home in Lake Harbor. The Johnsons plan to return to their former home in Illinois in May.

Mrs. J. S. Scoggins is reportedly quite ill at the home of her daughter, Mrs. H. R. Layfield in Lake Harbor.

Mrs. Maude Hartline of Delray is visiting her son, Postmaster Eric D. Hartline.

Correction: By error last week it was reported that Ralph Freeman of Belle Glade had won the \$100 set of silver given as door prize at the South Bay American Legion on Barbecue. It was E. Hamilton of Belle Glade who won the silver.

Mr. and Mrs. C. A. Thomas and family spent Sunday in Miami visiting her mother.

Mrs. D. W. Fender, Mrs. McHenry Alpine and Mrs. Emma Bode of Fort Myers were the Sunday guests of Mr. and Mrs. Alfred Vadaz.

Mr. and Mrs. Jess Barnes have purchased the cottage formerly owned by Mrs. Lucille Keene on Lake Ave.

Sue and Billy Miller of Okeechobee came Friday for a week end visit with their grandparents, Mr. and Mrs. A. B. Barnes.

Mr. and Mrs. Marvin Miller and son Charles spent the day here Sunday, Billy and Sue returned home with them.

Mrs. Opal Knapp and son Robert of West Hope, Ohio arrived Monday morning for a visit with her brother and sister-in-law, Mr. and Mrs. Lawrence Rogers.

Mr. and Mrs. C. B. Ming of Orlando spent Sunday with his sisters, Mrs. L. O. Ratley and Mrs. O. M. Martin at a family gathering and dinner at the Martin home. Those present were Mr. and Mrs. J. H. Hawkins and Miss Verna Martin of Miami, Mrs. L. O. Ratley, Miss June Ratley, Billy Joe Ratley, Mr. and Mrs. O. H. Martin, Glenn, Raymond, Ronald and Josephine Martin.

The Woman's Home Demonstration Club met on Thursday at the home of Mrs. H. B. Walker.

Miss Patsy Rogers, who is cataloging the library at the Everglades Experiment Station, accompanied Walter H. Thames, Jr., to Gainesville, where she attended a two-day conference with Miss Ida Cresup, head librarian of the College of Agriculture at the University of Florida. The conference was for all library workers at Experiment Stations and sub-stations over the state. The librarian at Winter Haven also accompanied the local group.

Rev. James N. Purcell announced an ordination service for deacons of the Baptist Church on South Bay Baptist Church on Sunday, March 8 at 2:30 o'clock.

Cherry Hardy of Lakeland came Friday to visit her grandmother, Mrs. L. O. Ratley and attend Mary Mathewson's birthday party.

Mrs. A. B. Mathis left Sunday for Black, Alabama to visit her mother, Mrs. Enfinger, who has been ill.

Mr. and Mrs. Charles Burkett and daughter, Patsy, have moved to Pahokee. Burkett, formerly manager of Royal's Store is now representing Gulf Life Insurance.

Mrs. E. R. Mackey is a patient at the Belle Glade Memorial Hospital.

Mr. and Mrs. Mack Enfinger and daughter, Cecilia of Canal Point were recent guests of Mrs. A. B. Mathis.

Mrs. Nicola Di Stefano, recently a patient at St. Mary's Hospital in West Palm Beach.

who has been convalescing at the home of her daughter and son-in-law, Dr. and Mrs. Glenn returned home the first of the week.

Mr. and Mrs. E. W. Weaver, Pat Vadaz and Season Weaver and Mrs. Mary Royal attended the Barbecue given by George Royal for his employees at Immokalee Sunday.

MRS. W. F. COOPER TO BE SPEAKER AT WSCS MEETING

Mrs. Floyd W. Cooper, District President from Ft. Pierce, will be speaker at the general meeting of the Women's Society of Christian Service, at the Community Methodist Church, March 11 at 3 p.m.

FLOWER BOXES GET FACE LIFTING BY GARDEN CLUB

The South Bay City Hall flower boxes and yard plantings received a face lifting Wednesday when the Garden Club, under direction of Mrs. Norman Dampy, converged on the lawn to change the plantings in the flower boxes and put new foundation plantings of annuals and perennials.

The new plantings are now becoming established and some of the plants have started to bloom.

Members taking part were Mrs. Dalmonte, Mrs. Clayton Waters, Mrs. H. B. Walker, Mrs. John L. Evans, Mrs. I. M. Davis, Mrs. H. O. Mitchell, Mrs. Billie Hartline, Mrs. W. M. Jeffries.

SOUTH BAY FIRE DEPT. GETS SEVERAL WORKOUTS

The South Bay Fire Department was called two days in succession last week.

Frank Willis responding to the fire siren with Chief Mead Willis found to his surprise the fire was at his own house.

Electric service wires leading from the house to the garage had in some manner become detached from their point of contact and one of them had fallen across a guy wire to the TV antenna, causing a short circuit and setting fire to the attic.

Prompt action on the part of the fire fighters soon had the fire under control without extensive damage except for water damage to the interior of the house and furnishings.

The fire truck was called out the next day to extinguish a fire in a car parked along the highway while the driver was at work in an adjoining field. Fire Chief Willis reported that apparently the fire had started in the back seat and he theorized that the driver had thrown a lighted cigarette from the front window which had been sucked back in through the rear window and landed in the back seat where it smoldered undetected until it finally caught fire.

SCHOOLING OF MIGRANT CHILDREN IS STUDIED

Mrs. Amber Warburton and Mrs. Charles Weston, representatives of the National Council on Agricultural Life and Labor, which is making a nationwide study on the education of children in migrant agricultural workers families, with headquarters in Washington, D. C., spent ten days at the Willis Motel while working in the South Bay-Belle Glade area.

Their survey centered around the Osceola Farm Labor Camp School where they worked for the better education of children of migrant families.

They have now moved on to Cypress Lodge to carry on their work in the Canal Point-Pahokee area.

Their work was entirely among white children. Another worker will be in this area shortly to work among children of migrant negro families, they reported.

GARDEN CLUB WILL EXCHANGE PLANTS

The regular meeting of the South Bay Garden Club will be held at the Legion Hall, March 11 at 3 p.m. Members are urged to attend. There will be a plant exchange.

GLADES JR. RED CROSS MEETS IN SOUTH BAY

The Glades Junior Red Cross consisting of members from Belle Glade, South Bay, Canal Point and Pahokee met at the South Bay School Thursday.

A variety program was presented by the local members. Mrs. Olga Hardy's home record and third grade children gave the greeting to the Junior Red Cross and sang an exquino song.

taught by Mrs. Ann Ouellette presented Barbara Jean Kersey, yodeler and a piano solo by Ronnie Bowen.

The seventh and eighth grades under direction of Miss Barbara Mayatt presented a vocal trio consisting of Josephine Martin, Joyce and Jean Spivey in a group of songs.

The program was followed by a short business session.

WIENER ROAST PETES MARY VI MATHESON

Mary Viola Mathewson was joined by a group of friends late Saturday afternoon at her home for a wiener roast celebrating her 9th birthday.

Enjoying the outdoor contests and evening of fun were: Linda and Sharon Wilder, Karen and Carol Vadaz, Judy and Joyce Cato, Cherry Hardy, Billy Joe Hodges, Ginnie Austin, Jack and Mary Lou Michael, Gail and Zella Martin, Michael Roberts, Eddie Kester, Gloria Gail and Jack Noss.

Chaperoning the children were Mary's parents, Mr. and Mrs. J. W. Mathewson, her sister and brother-in-law, Mr. and Mrs. W. R. Price and Mrs. R. L. Arnold, Belle Glade.

JOSEPHINE MARTIN FETED ON BIRTHDAY

Josephine Martin was complimented on her 14th birthday at a surprise birthday party given at the home of her parents, Mr. and Mrs. O. H. Martin. Miss June Ratley and Miss Norma Jean Lovell assisted with the games.

A wiener roast topped off with birthday cake and soft drinks served for refreshments. Guests were John and Marilyn Prevatte, Cecil Ray Harrell, Ray Clindard, Lucy Pearl Kelsoe, Marsha Walker, Joyce Partain, Joyce and Jean Spivey, Pascal Martin, Warren Austin, Barbara Jean Willis, Tony Woodham, Donald Tanner, Glenn Martin, Patricia Cato, Mrs. Josephine Ratley.

SPEED, WHISKEY AND NO LICENSE GREATEST WORRY TO FLA. PATROL

Speed, no driver's license and whiskey combined were the top three causes for state highway patrol action against drivers on Florida highways in 1953.

The patrol charged 12,765

with speeding, found 7,395 without driver's licenses and charged 4,260 with driving while intoxicated.

Charges in those three categories combined to total more than half of all arrest reasons for the entire year, Comdr. H. N. Kirkman said.

In other major violations, the patrol arrested more than 2,000 on charges of driving on the wrong side of the road or improper passing.

Three hundred and fourteen were arrested on charges of passing a school bus as it displayed a red light, and 200 warning on this violation, too.

The warning activity of the patrol was large, also. Troopers wrote 27,136 warnings against excessive speed; warned in writing, 6,503 against improper passing; 4,686 for running stop signs; and 2,454 for having improper or no lights at all.

All told, the patrol arrested 41,685 — including 1,402 persons on charges of public drunkenness — and wrote 51,880 warnings.

Activities of Glades Scouts

Mrs. A. B. McCormick announces that starting March 11, she will hold open workshop at the Scout Hut each Wednesday, 10 am to 5 pm. All adults interested are welcome, and Scout leaders should attend as often as possible. Due to the lack of attendance in the adult training class for scouting, the meetings have been discontinued, however persons interested can attend on Wednesdays.

Those intending to spend the day, should bring a "nose bag lunch." If you have any ideas, questions or problems concern-

ing scouting bring them to Mrs. McCormick and she will gladly assist in any way.

Plans for a Girl Scout cookie sale were discussed, and will be held last week in March.

All Girl Scouts are urged to meet at the Fire Station, Saturday, March 7, at 2:30 pm. This will be the starting of "A Clean Up and Fire Prevention Campaign."

Brownies not having membership cards are to use their pins as passes, scouts to use membership cards. The girls will start the campaign riding the fire engine to the Scout Hut.

Fire Chief Lawrence Will, in charge of demonstrating the proper use and handling of fire extinguishers, will tell the girls their duties, in the clean up program, and what to look for in the way of fire hazards.

All girls being at the Fire Station on schedule, with membership cards or pins, will receive

a free show tag. This campaign which will last for two weeks, has several purposes: to interest the girls in Community affairs, and safety precautions, as well as creating more interest among the adults.

UP GOES THE POWER OF EVERY BUICK
Special Super and Roadmaster!
It's more than pride that makes a man want a lot of horsepower beneath the hood of the car he owns.
For the real point in reaching record horsepower and compression ratios goes beyond miles per hour. It steps up performance and economy in normal driving.
That's what Buick engineers did when they upped the power and compression of each 1953 Buick — SPECIAL, SUPER and ROADMASTER — to the highest figures in Buick's fifty-year history.
In the SUPER and ROADMASTER, they put a new kind of V8 Engine — first passenger-car V8 with 8.5 to 1 compression, and a long list of other major engineering advances.
For the SPECIAL, they redesigned the famed F-263 Fireball 8 Engine — gave shorter flame travel, faster firing, higher horsepower and compression.
And to these spirited engines they coupled the new Twin-Turbine Dynaflow Drive* that adds flash-fast, quiet getaway to utter smoothness.
Just to give you an example of what all this means: The 1953 Buick SPECIAL with Dynaflow can beat the mighty 1952 ROADMASTER on getaway — can reach 30 mph (when the law allows) with a combined speed and jerk-free smoothness no other car can equal.
Of course, there's far more to these new Buicks for 1953 — some seven dozen new features alone.
Just why not come in and see for yourself that these are the greatest Buicks — and the greatest values — in fifty great years.

*Standard on Roadmaster, optional at extra cost on other Series.

WHILE BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

Palm Beach County Fair Open Today At Speedway Grounds

South Florida's biggest winter show—the Palm Beach County Fair—opens at 7 o'clock Friday night at Speedway Grounds on State Road 80, eight miles west of the Dixie and Southern Boulevard in West Palm Beach.

Entertainment, racing, minstrels, follies, marionette show, TV, band concerts, a money show, and 24,000 square feet of exhibits will all be assembled for the grand opening Friday night.

More than 50,000 people are expected during the nine-day run of the big show, according to Lane Allen, Fair director. Arrangements have been made to handle traffic on the "back roads" so that visitors from coastal cities may use State Road 7, Military Trail and Congress Avenue to reach the grounds. State Highway patrolmen, sheriff's deputies and city police will assist, and parking will be ready for more than 4,000 automobiles at one time within the Fair Grounds.

All the features of an old-fashioned county fair, with special attractions for the kids and the winter visitors, have been arranged. There will be prizes every afternoon and evening and free acts in front of the grandstand and along the midway.

Twelve of the finest and newest rides will be here, with nearly five acres of fun-land. School kids will have three big days. Scouts and any other youth organizations will be admitted free during the first Saturday. Schools from all over the county will exhibit in four big tents, and Monday afternoon will be free-time for school children. The second Saturday will be Children's Day and special

events will be announced later. Cooking schools will be daily affairs with sessions in the afternoon on Saturdays and evenings during the week. There will be live television broadcasts and visitors to the Fair grounds will be able to see themselves on a TV screen while they are being photographed by a special camera. There'll be radio broadcasts which will include interviews with Fair visitors. There'll be movies, dioramas and Reddy Kilowatt.

Three times as much space as ever before has been set aside for exhibits. Sacred cows from Florida's finest ranches and 4-H Florida Brahman strain will be shown in the cattle tent along with blooded stock from some of Florida's finest ranches and 4-H winners from the state competitions. Everglades vegetables, ramie, kenaf, sugar cane, tropical fruit and the varied produce of the rich coastal farms will be included.

Produce of the county's industries, commercial, home building and electrical equipment will be on display, many of them for the first time anywhere. Armed forces will show how air-borne teams have to work in the jungle with a realistic display of equipment in a natural tropical setting. Displays of fish and game from over the state, flood control and water conservation work, state forestry activities, and an elaborate 1,000 square-foot demonstration of the work of the Everglades Experiment Station will be on exhibit.

Curtis Candy ponies, one of the most popular children's acts

Florida Greyhound bus service will run at frequent intervals from downtown West Palm Beach to the Fair Grounds and eastbound buses will stop there. All buses, special or cross-state, will stop on signal at any corner on South Dixie or Southern Boulevard to pick up and discharge Fair Grounds passengers.

American Red Cross will furnish first aid equipment and personnel on the grounds throughout the nine-days of the fair.

Too Late To Classify

By Russell Kay A dramatic presentation of facts and figures in the New York Journal American recently showed that America's standard of living far surpasses that of four other countries on both sides of the Iron Curtain—Russia, East, France and Italy.

In each of these countries a worker's buying power was computed in terms of wages and prices in his country. The information was carefully compiled by correspondents stationed in the capital cities of each country.

We may gripe about the high cost of living, but compared to the rest of the world the American worker is so much better off that he is in a class by himself.

The American wage earner lives better and receives more for his money than anywhere else in the world. With their wages, Americans buy more and better food than citizens of Russia, England or Italy.

The average bus driver in the United States works an average of 25 minutes to pay for a pound of butter. In England a worker must stay on the job 48 minutes to earn the same amount of buying power. In France, 1 hour and 54 minutes. In Italy 2 hours and 36 minutes.

But in Russia, which would have the world believe its workers enjoy every advantage and better food than citizens of a Democracy, a bus driver must work 14 hours and 30 minutes to earn enough money to buy a pound of butter.

For a pound of coffee, an American auto mechanic works 23 minutes, an Englishman 1 hour and 36 minutes, a Frenchman 1 hour and 42 minutes and an Italian 5 hours.

In Mr. Stalin's workers' paradise a Russian auto mechanic must labor 17 hours and 36 minutes to earn enough money to buy a pound of coffee. He can find one to buy, about 46 times as long as an American.

Before you go ga-ga over the blessings of the Soviets or join the Communist Party you better decide whether you would rather work 23 minutes to earn enough to buy a pound of coffee or would prefer to work 17 hours and 36 minutes as the Russian worker does.

The same ratio applies to just about everything else, clothes, shoes and shelter; and while the buying power of other workers is far less than ours, the quality of the goods or services they buy with their money is much poorer than the American product.

Ladies are having as much fun as where they assist with the sports

These Red Cross volunteer Gray Ladies are having as much fun as where they assist with the sports

Less electrical power and fewer mechanical tools make it impossible to have a high level of production in Russia, or a high standard of living. While in America about 7½ kilowatts of electricity power and energy is available for each worker, the Russian factory workers have only a tiny fraction of this amount. Electricity is available to only a few Russian homes, the Russian correspondent reports.

In this country, the constant demand for more power is being met by the nation's electric power industry. Here in Florida, for example, the Florida Power & Light Company plans to expand and enlarge its statewide facilities during the next nine years with the investment of \$332 million dollars. Thus this one company will be capable of pouring into the state 1,405,000 kilowatts of vital electric power by Jan. 1, 1962 to be used in building bigger industries and better homes.

No electric refrigerators can be bought by Russian workers, yet you find them in most American workers' homes today. The few Russians who can afford a radio can purchase a battery set for the equivalent of about two months' work. However, the quality of the average Russian battery set is so poor that such sets, because of inefficient manufacturing methods and inferior material and workmanship, wear out quickly and seldom give any satisfaction to the owner.

The average Russian worker cannot afford any kind of an automobile. Only the Commissars and bigwigs of the party side in fact the survey conducted by the New York Journal American reveals that workers in none of the other countries can afford even a small car.

These Red Cross volunteer Gray Ladies are having as much fun as where they assist with the sports

ever to show in Palm Beach County will be on parade at the Fair grounds with special shows both afternoons and evenings. Speedway officials have scheduled three exceptional races. The midget cars will be shown for the first time here in pre-view Friday night and will stage a National AAA sanctioned race Saturday night at 8 o'clock after two hours of time trials. Wednesday night's race will be the Modified Winter Championship NASCAR race sponsored by the Junior Chamber of Commerce and Saturday night there will be a 100-mile, 200 lap Team Race for sportsmen and modified cars.

Florida Greyhound bus service will run at frequent intervals from downtown West Palm Beach to the Fair Grounds and eastbound buses will stop there. All buses, special or cross-state, will stop on signal at any corner on South Dixie or Southern Boulevard to pick up and discharge Fair Grounds passengers.

American Red Cross will furnish first aid equipment and personnel on the grounds throughout the nine-days of the fair.

EVERGLADES FAIR FOR 1953, Mar. 23-28

Is A Toll Highway The Answer To Florida's Highway Problem?

Editor's Note: Because something must be done about our arterial highways as soon as possible, and because a proposal has been made for a toll highway, we are offering the following in three installments. Please read and study.

(Second Installment)
(Continued from last week)

The Florida Turnpike Proposal

The proposed toll turnpike would provide a substitute for U. S. Route 1 between Jacksonville and Miami, which has been called the most inadequate stretch of highway in the state and one of the 25 most dangerous segments in the country. A supplementary proposal calls for a leg to run across the central section of the peninsula connecting the Tampa Bay area to the main stem in the vicinity of Daytona Beach. Proposed tolls range from 1.25 cents per mile for passenger cars to 7 cents for the heaviest trucks. Both phases of the project have received the blessing of the outgoing state administration.

The inadequacy of the Jacksonville-Miami route is suggested by recent traffic declines on certain stretches despite an upward trend in total north-south movement in the state. Further evidence is supplied by test runs conducted by the engineering consultants and by the State Road Department. In one such test, driving time for the 350 miles was about 10 hours and 15 minutes, making an average speed of 35.4 miles per hour. It is estimated that a modern, limited-access highway could reduce this time to about 6 hours, or over 40 percent. In addition to the general inadequacy of the rural portion of the route, 51

congested areas are encountered through which average speeds are very low. On the test run the speed reached as low as 4.2 miles per hour in the West Palm Beach urban area.

The proposal has been studied independently by two consulting engineering firms and their respective cost estimates cover both segments are reasonably close. One arrived at a figure of \$233 million and the other submitted an estimate of \$255 million, each attributing about 30 percent of construction costs to the cross-state project.

A project cost of \$250 million would be over six times the total expenditure for highway construction in 1950, and borrowing would be necessary. This would be arranged by the Florida State Improvement Commission, which was created in 1941 and is composed of the Governor, Chairman of the State Road Board, and three appointed members. Its purpose is to facilitate the construction and operation of public buildings and works for state purposes. In pursuance of its objectives, it is authorized to issue revenue certificates which are backed by the receipts of the properties which it finances but not by the credit of the state because of the constitutional restrictions. The highway would be leased to the State Road Department which would collect the tolls and pay interest and retire the debt. Upon retirement of the obligations, the system would revert to the Department and assume the same status as other highways in the State. The Overseas Highway to Key West, similarly financed and administered, has

practically reached this stage. For the most articulate opposition to the proposal has emanated from the intermediate cities on Route 1, which object to being bypassed because of the potential loss of tourist business. Although the precise effect is speculative, the traffic stimulation of a super-highway passing close to these cities could cause an over-all gain in business, although particular businesses might suffer. This has been the observed experience on a number of the other toll turnpikes.

It is apparent that this opposition to the project is not directed at the toll method but against a relocated modern highway which would be needed. It is generally agreed that Route 1 is presently inadequate. If modernization is to be accomplished, the question is whether the old right of way should be straightened and widened or whether a new one would be more desirable. The latter is plainly the advantage of relocation versus the possible loss to business in interests in the intermediate cities.

Considering only the questions of highway engineering and economics, indications are that the provision of high-type road would require the utilization of a new right-of-way to insure both maximum economy and the desired high standards. The impracticability of attacking the problem by improvements to Route 1 is illustrated by the fact that, despite recent expenditures of \$2.5 million on that route in Daytona Beach, traffic flow is still unsatisfactory. The average speed through that city on the test run was only 8.3 miles per hour. The greatest expense involved in reconstructing the present road would be right-of-way cost for widening because of the valuable property encroachments. The seriousness of this problem is indicated by the experience of the state of Washington which found that the cost of acquiring additional land on one side of a 27-mile stretch of highway was estimated at \$16 million. By relocating the highway to a new location, the cost of right-of-way plus construction of a 6-lane facility was reduced to \$13 million. It must be noted, however, that since the old road must still be maintained and operated to serve local traffic, the appropriate comparison is between the cost of rebuilding the old route versus the combined cost of providing the new road, keeping up the old one. In addition to potential economy, engineering standards are involved. High-grade facilities for dense traffic routes require limited access which is generally unattainable on the old right-of-way because of

Red Cross Fund Campaign Poster for 1953

The "marching flag" poster of the late N. C. Wyeth, first used by the Red Cross in 1923 and repeated in 1947, will be used again as repeated also is last year's slogan, "Answer the Call."

abutting home and business.

If it should prove necessary, the East Coast Highway Association threatens a court attack on the constitutionality of the Improvement Commission's authority to issue the revenue bonds. It is argued that the state would have to come to the rescue with its credit if the project did not pan out, and that such an issue would therefore constitute the prohibited "bonded indebtedness." Although it is impossible to predict the outcome of such a suit, it is pertinent to note that the role of the Improvement Commission would be precisely the same as in a number of other projects involving bond issues which have been unquestionably validated by the courts. The magnitude appears to be in the magnitude of the adversely affected property interests. Further, it is questionable whether the state would have any moral obligation to come to the aid of the project if it should suffer insolvency. The bonds of such facilities are marketed through outlets which have substantial experience in this type of financing and are taken with the explicit stipulation that the credit of the state is not pledged. The greater risk arising from this reservation is reflected in higher interest rates on revenue bonds than on general state issues. If the facility should be unable to meet its obligations in full, the loss should be borne by the purchaser of the bonds through financial reorganization to scale down the debt and the debt and the level of interest charges. Such contingencies represent an integral part of business risk taking.

The two independent engineering surveys, which have been made agree on the economic feasibility of the East Coast turnpike between Miami and Jacksonville. According to the reports, current traffic volume and reasonably anticipated increments provide a wide margin of financial safety. There is disagreement, however, regarding the cross-state link. The firm of Coverdale & Colpitts concludes that the inclusion of this segment as a direct, the connecting link as to make the entire project marginal. This firm estimates that the Tampa leg would represent 29 percent of the project cost but in the first year of operation would contribute only about 5 percent of the income available for debt service. If this is correct, it raises the policy question of whether it is sound to incorporate an unprofitable branch with the expectation that it will be supported by a lucrative main stem. If the branch were not built, it would be possible to lower the tolls on the main line or more quickly liquidate the debt and eliminate tolls. The other report finds the whole project to be clearly feasible. This conflict indicates the need for further intensive study of the cross-state segment. (To Be Continued Next Week)

350 TON SHIPMENT

(Continued from Page 1)
of fiber was produced in Palm Beach County, and some seed in Martin and Broward Counties. Cuba had contracts for both seed and fiber; seed was produced in Cuba and some important amount of fiber was graded undesirable by the USDA.

In 52 two contracts were awarded in Cuba and one in Palm Beach County, for the maximum to one firm of two and a half million pounds of fiber.

The two Cuban firms produced a maximum of 2500 pounds each, and the Palm Beach County firm produced approximately 850,000 pounds mechanically. Some smaller amounts have been produced throughout Central and South American countries by retinning the 5,000-year-old hand process originated in the time of the Pharaohs, or before Confucius. The Palm Beach County firm of the American Kenaf & Ramie Corporation is the only organization in the world to produce in volume by mechanical methods.

Another Palm Beach County firm — The Newport Industries — is the only firm in the world to produce ramie mechanically in volume. They produced more than 3,000,000 pounds on 2500 acres during '52.

Japan and Western Europe frantically attempted to purchase fifteen times the ramie production of Newport in 1952.

Two Palm Beach County firms have demonstrated to the world the feasibility of producing kenaf and ramie fiber in quantity to furnish our wartime needs. It has been demonstrated that ramie is being produced competitively as to cost and with out competition as to quality. Kenaf production is practical at less than wartime prices of jute.

The USDA's valuation of the term "Western Hemisphere" seems to have been clouded to the extent that continental USA is eliminated. Our Florida Delegation rescued a part of the program from OFAR in '51 and '52, but now it seems that there's no money for fibers except thru OFAR. OFAR reminds one of the toddler who graciously gives

neighbors all the meat in the deep freeze.

On July 6th, 1952 the local firm notified the USDA that it was ready to deliver fibers under the contract; on November 7th or 8th, the USDA notified Alf that it was ready to accept fiber under the contract. It is pertinent to know that 650,000 pounds of Kenaf fiber produced in Palm Beach County and wanted by the trade is being shipped to the Philippines on March 28th from the Port of Palm Beach, to be processed by jute machinery, closer by 7,000 miles to the Orient than is Philadelphia.

GLADES STATES PRISON

(Continued from Page 1)
pork product now planned, and so that slaughtering and processing may be properly done, a cold storage and slaughterhouse must be installed. The budget commission have okayed the items and the coming legislature will have it for consideration.

A dairy herd of approximately 50 cows is maintained at the farm.

A flock of turkeys will be installed within the next several weeks to furnish meat on appropriate occasions not only to the local prisoners but for other state institutions.

The cane plantings and the sugar mill produced 210,000 pounds of sugar and 45,000 gallons of syrup for table use, with by product of 40,000 gallons of blackstrap for cattle feed. Rice has been grown at the farm for sixteen to 18 years in sufficient quantity for use of the local prison farm.

Grapefruit and Valencia oranges are produced on the citrus grove in sufficient quantity to permit shipments to the State Hospital at Chattahoochee.

With the modern canning plant now working, enough string beans may be canned for all state institutions. Tomatoes, also may be produced both on the muck land and on the sand at Clewiston in huge quantities. Dried beans have always been a staple at the Belle Glade institution and men are available as facilities and may be expanded. Four varieties are usual at the Farm — Great Northern, Navy, Kidney and Pinto.

Although the modern housing, hospital, and service accommodations were built for 500 inmates, only from 225 to 265 are kept at the farm at present for the plan now under way. More prisoners are expected to be assigned as the overall plan becomes more mature.

The Farm has pioneered ramie as a Glades crop; it has been growing rice for years; dried beans as a staple production of the Glades has clearly been demonstrated; and now recent shipments of beef at two years, averaging 1198 pounds and grading "good" 100 percent on grass, corn and blackstrap produced at the Farm; all this adds to the economy of the community thru demonstration, and together with dairy products,

fowl, hogs, citrus, vegetables, sugar and corn affords the taxpayers of the State the satisfaction of having one part of its government bringing an income instead of draining taxes.

The Superintendent and his staff have the approval of the legislative and administrative branches of our State government, and all enjoy the gratitude of its common folk who pay the taxes.

In this same issue we're baring the idiosyncrasies and state-mates of a federal bureau, and it is a pleasure to be able to laud the accomplishments of one of our own State bureaus.

Nathan Mayo, as Commissioner of Agriculture has under his direction the Prison system of Florida with the Governor's Cabinet as a Board. A committee of the Cabinet usually administers the affairs of the several institutions and makes recommendations as to general policy.

Way back, W. V. Knott was an enthusiastic member of this committee as well as Colin English. Bob Gray and Treasurer Larson have helped Mr. Mayo in recent years, and these gentlemen are responsible for the overall policies of the Glades State Prison Farm and the plan instituted by Superintendent Greene to furnish foodstuffs to other State Institutions.

The practicability of this plan is beginning to make itself most evident, and the shipment of beef last week marks an historical date in this effort.

men are responsible for the overall policies of the Glades State Prison Farm and the plan instituted by Superintendent Greene to furnish foodstuffs to other State Institutions.

The practicability of this plan is beginning to make itself most evident, and the shipment of beef last week marks an historical date in this effort.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.
